Aviator Services Inc., We're all about private jets.

Private aviation is growing. Be part of it. We're in the business of operating private jets safely and efficiently.

Our diverse clientele depends on us to provide them clean, well appointed private jets for personal and business travel.

We also have years of experience operating modern business jets. Leading companies hire us to operate their aircraft so they can spend their time running their business, not their plane.

If you want to enjoy the benefits of flying privately, look no further. Call us. A world of options will become available to you.

Memberships: National Business Aircraft Association
and National Air Transport Association

Private Jet Charter

■ Enjoy no hassle air travel.

If you need to travel on your schedule, not someone else's, fly privately. We provide you any type of private aircraft you need.

All your flights are tailored to your specific schedule and destination. From large to small cabin jets or prop-jets, we give you options that will meet your travel needs and budget.

Plus, as a licensed US Air Carrier, we provide you private

aircraft from our own fleet of late model jets, or from one of our fellow air carriers. You'll fly in comfort and safety, with courteous and experienced flight crews, and in beautiful, well maintained aircraft.

Your private flight will include your choice of delicious meals, snacks, and refreshments. And we handle all your ground transportation arrangements at your destination - from rental cars to limousines.

When you fly privately you'll enjoy time savings, convenience, privacy, and comfort. Reserving a flight is easy. Call us with your itinerary, give us an idea of your budget or aircraft preference, and we'll give you the best options for your flight. We give you your trip costs up-front- no hidden fees. To demonstrate how easy and convenient flying privately can be, let us handle your next trip for you.

You'll enjoy the following when you fly privately:

- Fly on your schedule, not someone else's.
- Many types of private jets to choose from
- Enjoy your choice of meals, drinks, and snacks.
- All ground transportation arranged for you at your destination.

- No long term commitment - pay as you fly
- Know your costs up front - no hidden fees
- Reserving a flight is easy, just call us with your itinerary, aircraft preference or budget

Private Jet Management Services

When you can't depend on airline schedules or fly more than 150 hours per year, owning your own plane offers the most flexibility. But, you're in business to run your business, not your plane. Our business is running your plane.

Operating a modern private jet is complex. Expertise and experience is required to fly your plane safely, control costs, and maintain its resale value.

We give you the organization, key personnel, and system you need to operate your plane properly:

Aviation Manager, Director of Maintenance, Chief Pilot, Flight Crews, written policies and procedures, administration, and experience. This system allow us to manage your plane in accordance with our industry's best safety practices. We handle it all for you so you can focus on what you do best.

You'll enjoy the following benefits from our private jet management services:

- **Experience:** We do this for a living. Our management team has years of experience operating jets like yours.
- **Tax advantages:** Aircraft used for business can be depreciated, substantially reducing your tax burden.
- **Charter Income:** Turn your plane's idle time to income and reduce your ownership costs.
- **Financial Planning:** We prepare a five year plan so you'll know your ownership costs upfront.
- **Trip scheduling and ground transportation arrangements:** We handle all the details for your flight.
- **Free FAA oversight of your plane:** As a licensed US Air Carrier, the FAA regularly inspects our aircraft and pilots to verify compliance with safety requirements.
- **Maintenance System:** Our experienced Maintenance Director uses detailed procedures to ensure your plane is serviced routinely, before and after every flight. This system is vital to keeping your plane safe, controlling your costs, and maintaining your plane's resale value.
- **Reporting:** Customized reports detailing your plane's flight activity.
